

Brief CV

*此表请提供中英翻译

English Name	Aylin Alin	中文姓名		
Gender	Female	Title (Pro./Dr.)	Prof.	
Position (President...)	Chairman of Department of Statistics	Country	Turkey	
University/Department	Dokuz Eylul University/Department of Statistics			
Personal Web Sites				
Research Area	High Dimensional Data Analysis, Linear Models, Resampling Methods, Robust Inference			
Brief introduction of your research experience:				
<p>I serve as a professor of Statistics and the Head of the Department of Statistics at Dokuz Eylul University, Turkey. I received my PhD from Dokuz Eylul University. I am a member of American Statistical Association, International Statistical Institute, International Association for Statistical Computing (IASC-ISI Section), Institute of Mathematical Statistics. I mainly conduct research in following areas: 1) Robust parameter estimation and outlier detection for the generalized linear models; 2) Robust algorithm development for multivariate statistical models such as PLSR used for analyzing high dimensional data; 3) Robust and fast resampling methods for sampling distribution estimation; 4) Robust change point estimation for generalized linear models; 5) Differential expression analysis and network construction for genes.</p>
