

Brief CV

Name	Chuan-Hao Guo	中文名	郭传好	
Gender	Male	Title (Pro./Dr.)	Dr.	
Position (President...)	Distinguished professor, Master's supervisor	Country	China	
University/Department	Zhejiang Sci-Tech University/ School of Economics and Management			
Personal Website	<div>https://orcid.org/my-orcid</div> <div>http://dsxxcx.zstu.edu.cn/master/20160029</div>			
Research Area	nonlinear programming theory and algorithms; supply-chain management and optimization			

Brief introduction of your research experience:

I have received the master's degree in 2009 from Guangxi University and received the Ph.D. degree in 2014 from Shanghai University. At present, I am a lecturer (Distinguished professor) and Master's supervisor in Zhejiang Sci-Tech University. My main research interests include copositive programming, sequential quadratic programming algorithm, quadratic programming, nonlinear programming and supply chain management and optimization, etc.

I have host and participated in more than 10 projects, and have published about 16 papers in some important related journals, and 9 of them were indexed by SCI or EI.
