

## Brief CV

|  |   |                            |       |   |
|--|---|----------------------------|-------|---|
| <b>Name</b>  | Le Kang   | 中文名                        | 康乐    |  |
| <b>Gender</b>  | Male  | <b>Title</b><br>(Pro./Dr.) | Dr.   |   |
| <b>Position</b><br>(President...)  |   | <b>Country</b>             | China |   |
| <b>University/<br/>Department</b>  | College of Materials Science and Engineering, Xi'an University of Science and Technology, Xi'an |                            |       |   |
| <b>Personal Website</b>  |   |                            |       |   |
| <b>Research Area</b>   | Alkali-activated cementitious material; Solid-wastes; Photocatalysis; New energy materials      |                            |       |   |
| <b>Brief introduction of your research experience:</b>   |   |                            |       |   |
| <b>项目经历</b>  |   |                            |       |   |
| 1. National Natural Science Foundation of China (No. 21346011),  |   |                            |       |   |
| 2. Key Project of Natural Science Foundation of Shaanxi Province (No. 2013JZ014),  |   |                            |       |   |
| 4. Xi'an University of Science and Technology Doctoral start-up project (NO. 2018QDJ011).  |   |                            |       |   |
| <b>Professional Experience</b>   |   |                            |       |   |
| <b>2018. 1–present</b> Xi'an University of Science and Technology Lecturer   |   |                            |       |   |
| <b>Research Area</b> : 1. Alkali-activated cementitious material;  |   |                            |       |   |
| 2. New energy materials (Solid wastes based lithium battery)   |   |                            |       |   |
| <b>2012. 9–2018. 1</b> Xi'an University of Architecture and Technology graduate research   |   |                            |       |   |
| <b>Research Area</b> : 1. Utilization of solid wastes;   |   |                            |       |   |
| 2. Solid wastes based photocatalytic materials   |   |                            |       |   |
| 3. Study on preparation and photocatalytic performance of alkali-activated steel slag and magnesium slag based cementitious material |   |                            |       |   |
| <b>Education</b>   |   |                            |       |   |
| Xi'an University of Architecture and Technology PhD in Materials Science (材料学博士)   |   |                            |       |   |
