Position （President…）		**Country**	KSA	

University/Department	CS department, CCSE, Taibah University
Research Area	Semantic Web, GIS, Optimization

Brief introduction of your research experience:

My general research interests lie in the modeling and integration of spatial, temporal and semantic information, within the settings of semantic web, optimization and spatio-temporal databases. Geographic applications are the main thread of my research and provide a rich framework for experimentation and consideration of space, time and semantics.
