

Brief CV

Name	Chou Pui May	中文名	-	
Gender	Female	Title (Pro./Dr.)	Dr.	
Position (President...)	Lecturer	Country	Malaysia	
University/ Department	Taylor's University / School of Engineering / Mechanical Engineering			
Personal Website	-			
Research Area	Nanomaterials, Biopolymers			
<p>Brief introduction of your research experience:</p> <p>I was involved in the synthesis of biodegradable bone cement and bioactive polymers in my undergraduate study. After that, I studied thermally responsive hydrogels for cell culture application during my PhD study. My current research area focuses mainly on the production of renewable nanocellulose using environmental-friendly approach.</p>
