

Brief CV

Name	Rubina Bahar	中文名		
Gender	Female	Title (Pro./Dr.)	Dr.	
Position (President...)	Assistant Professor	Country	Malaysia	
University/ Department	University Tunku Abdul Rahman(UTAR), Department of Mechanical and Materials Engineering			
Personal Website				
Research Area	Desalination, Energy, Water, Green Technologies			
Brief introduction of your research experience: My major areas of research are Sustainable Energy and Water . I have explored the major processes of Desalination technology using thermal and membrane processes and still developing energy efficient water purification processes associated with renewable energy . Besides, I have recently expanded my research area in Green Manufacturing and 3-D printing as these two will be the next revolutionizing technologies in engineering research.
