

Brief CV

Name	LOKE Yuan Ren	中文名	骆元任	
Gender	Male	Title (Pro./Dr.)	Dr	
Position (President...)	Lecturer	Country	Singapore	
University/ Department	Nanyang Technological University / School of Computer Science and Engineering			
Personal Website	http://www.ntu.edu.sg/home/yrloke/			
Research Area	Computer Vision, Image Processing, Machine Learning, Embedded Vision System			

Brief introduction of your research experience:

Dr. Yuan Ren Loke is a Lecturer with the School of Computer Science and Engineering, Nanyang Technological University at Singapore. He received the B.Eng. degree and Ph.D. degree in electrical engineering from the National University of Singapore in 2005 and 2013, respectively.

Prior to joining NTU, he was an instructor with responsibility for lab demonstrator, tutor and final year project supervisor at National University of Singapore. Aside from course development for embedded system design, digital electronic, microcontroller programming and engineering mathematics, he has been working on the development of vision based collision avoidance system from unmanned aerial vehicles, text detection and recognition in the wild. His research interests focus on computer vision, image processing, machine learning, and embedded computer vision system. He is also an IEEE member.
