Research Area	My research interest is in remote sensing and GIS analysis particularly, hydrologic-hydraulics geospatial modelling and agriculture geospatial applications. I have skill in many softwares related to my interest such as ERDAS, ArcGIS, ENVI, HEC-RAS and HEC-HMS.			
Brief introduction of your research experience:				
<p>Nor Aizam Adnan obtained her Doctor of Philosophy from University of Southampton, United Kingdom (Geography, 2011), Msc from Universiti Putra Malaysia, Selangor (Remote Sensing and GIS, 2002) and B.A (Hons.) from Universiti Malaya, Kuala Lumpur (Geography: Remote Sensing and GIS), 2000). Currently she is senior lecturer under the Centre of Studies Surveying Science and Geomatics, Faculty of Architecture Planning and Surveying, Universiti Teknologi MARA Shah Alam, Selangor. Her main interest is in Remote Sensing and Geographical Information Science (GIS) and she has published more than 30 research articles in international and national journals and conference paper publications related to geospatial hydrological-hydraulics modelling, remote sensing in agriculture applications and environment aspect. She also received one Diamond award and 4 gold awards for her participation in several International Innovation, Invention and Design Competition from her research activities . It is her interest to help the undergraduate and postgraduate students with her 12 years experience in academics field to polish the student research skills by co-authoring this book.</p>
