| Brief introduction of your research experience: | | | | |
| <p>Chi-Hua Chen is a distinguished professor (Minjiang scholar and Qishan scholar) for the College of Mathematics and Computer Science of Fuzhou University. He received his B.S. degree from the Department of Management Information Systems of National Pingtung University of Science and Technology in 2007, a M.S. degree from the Institute of Information Management of National Chiao Tung University (NCTU) in 2009, and a Ph.D. degree from the Department of Information Management and Finance of NCTU in 2013. Furthermore, he served as an assistant professor for the Department of Industrial Engineering and Engineering Management of National Tsing Hua University, the Department of Information Management and Finance of NCTU, the Department of Transportation and Logistics Management of NCTU, the Department of Communication and Technology of NCTU, the Bachelor Degree Program of Digital Marketing of National Taipei University, and the Department of Information Management of National Kaohsiung University of Science and Technology. He also served as a research fellow for the Internet of Things Laboratory of Chungwa Telecommunication Laboratories. He has published over 200 journal articles, conference articles, and patents. He serves as a Guest Editor-in-Chief for EURASIP Journal on Wireless Communications and Networking. He served as a Guest Editor-in-Chief for ISPRS International Journal of Geo-Information, Symmetry, Agronomy, and IEEE Multidisciplinary Engineering Education Magazine. He served as a Guest Editor for Electronics and Mathematical Problems in Engineering. He is also currently serving as a member of the editorial boards of several international journals. His recent research interests include Internet of things, big data, deep learning, cloud computing, cellular networks, data mining, intelligent transportation systems, network security, healthcare systems, augmented reality, e-learning systems, and digital marketing.</p> | | | | |
