

## Brief CV

<b>Name</b>	Muhammad Arif Ab Aziz	中文名		
<b>Gender</b>	Male	<b>Title</b> (Pro./Dr.)	Dr	
<b>Position</b> (President...)		<b>Country/ Region</b>	Malaysia	
<b>University/ Department</b>	School of Chemical and Energy Engineering, Faculty of Engineering, Universiti Teknologi Malaysia, Malaysia			
<b>Personal Website</b>				
<b>Research Area</b>	Solid acid/base heterogeneous catalysts, solid waste management			

**Brief introduction of your research experience:**

Muhammad Arif Ab Aziz is a senior lecturer of Chemical Engineering at Universiti Teknologi Malaysia (UTM) in Skudai, Johor, Malaysia. He obtained his undergraduate degree in Chemical Engineering (2009) from UTM. He received his PhD in 2015 working on the valorization of CO<sub>2</sub> over solid acid/base heterogeneous catalysts. His current research interests focus on the design and synthesis of advanced materials and heterogeneous catalysis relevant to clean environment and energy. He has also been involved in waste management research such as organic waste composting for sustainable solid waste management. He has published more than 20 scientific papers in international journals and has presented more than 30 in international conferences with a total of 726 citations and h-index 11, as reported in Scopus. He has received several important recognitions to his research career, including the Nippon Sheet Glass Foundation Grant.
