

Brief CV

Name	Khairul Azlan Mustapha	中文名		
Gender	Male	Title (Pro./Dr.)	Dr.	
Position (President...)	Senior Lecturer	Country/ Region	Malaysia	
University/ Department	University of Malaya / Department of Geology			
Personal Website	-			
Research Area	Petroleum Geochemistry			
Brief introduction of your research experience:				
<p>My research interests in petroleum geochemistry focuses mainly on the source rock characterization by geochemical and petrological techniques. This involves pyrolysis (Rock Eval and PyGC), molecular analysis (GC and GCMS), Visual kerogen typing (VKT), Coal petrographic analysis by maceral and vitrinite reflectance. I have been actively involves in research and collaborate mostly from Middle East, Africa, South East Asia and Europe region. Our research team has published numerous research papers derived from these regions. I am presently expanding my research interest in environmental geochemistry and unconventional resources.</p>
