

Brief CV

***此表请提供中英翻译**

English Name	Rodrigo Soto	中文姓名		
Gender	Male	Title (Pro./Dr.)	Doctor	
Position (President...)	Secretary or president (preferential choices as chair)	Country	Spain/Ireland	
University/Department University of Limerick / Chemical and Environmental Sciences University of Barcelona / Chemical Engineering Department				
Personal Web Sites				
Research Area	Biofuels, heterogeneous catalysis, crystallization and kinetic modeling			
<p>Brief introduction of your research experience:</p> <p>I have been involved in the development of biofuels and fuel additives since 2011 at the University of Barcelona. I have published 7 papers on this topic. More particularly in the field of the heterogeneous catalysis by ion-exchange resins and zeolites. I am currently working for the Synthesis and Solid State Pharmaceutical Centre (Ireland) at the University of Limerick as a Post-doctoral researcher. The kinetic modeling of either catalytic process or crystallization processes, specifically crystal growth, are my main area of expertise.</p>
