

Brief CV

*此表请提供中英翻译

English Name	Chunfeng Shi	中文姓名	史春风	
Gender	Male	Title (Pro./Dr.)	Pro.	
Position (President...)	Group leader	Country	China	
University/Department	Research Institute of Petroleum Processing, SINOPEC			
Personal Web Sites	No.			
Research Area	Catalysis, Green chemistry, Zeolite, Graphene, Oxidation process			
<p>Brief introduction of your research experience:</p> <p>Pro. & Dr. Chunfeng Shi completed his Ph.D. at Research Institute of Petroleum Processing (RIPP), SINOPEC in 2008, then worked as an engineer at long-term project research department of RIPP. His research field is environmental benign chemistry, especially focused on selective oxidation catalyzed by zeotype materials, porous materials and nano-materials. Recently, as a team leader, he has also interested in carbon catalysis and graphene field. Based on his previous researches, he has applied more than 100 patents and published more than 20 papers. He got the second grade award of technology invention from China govenment and the first grade award of technology invention from SINOPEC. Besides, he received the award of origin innovation prize (twice) and youth S&T talented person sponsored by Enze Min (CAS&CES membership).</p>
