

Brief CV

Name	Zan Na	中文名	咎娜	
Gender	Female	Title (Pro./Dr.)	Dr.	
Position (President...)	Engineer	Country	China	
University/ Department	Department of Materials Sciences and Manufacturing Processes, R&D Center, AECC			
Research Area	Materials			

Brief introduction of your research experience:

Dr. Zan Na majored in materials engineering, and works mainly concerning microstructure and properties of aluminum alloy, iron and steel, especially TWIP and TRIP steels, which are applied in engine and other parts of airplane and aircrafts. Dr. Zan Na has published over 20 papers and attended several international conferences on materials. Dr. Zan also hosts and participates in over 10 projects, who has earned much experience during the process in the field of material microstructure and properties.
